

CRISP COUNTY WATER WORKS
WATER QUALITY EXCELS
June 2023
2022 CONSUMER CONFIDENCE REPORT

The Lake Blackshear Area Water System, serving over 3600 customers in Crisp, Sumter, and Worth counties are pleased to report that the communities drinking water met or exceeded all safety and quality standards set by the State of Georgia and The Environmental Protection Agency during the previous year. The 2022 Water Quality Report provides customers with detailed accounts of all the monitoring and testing results gathered from water testing during the year. Crisp County Waterworks' employees are committed to providing you with safe, dependable tap water on a year round basis, and are proud to provide the enclosed information.
